
Christopher E. Buddenhagen

(850) 510 6460 cbuddenhagen@ufl.edu/cbuddenhagen@gmail.com

Education

2016, Doctor of Philosophy, Botany, Florida State University, Tallahassee, FL. USA.
 1995, Master of Science, Botany, The University of Auckland, Auckland, New Zealand
 1993, Bachelor of Science, Biology, The University of Auckland, Auckland, New Zealand

Work Experience

08/2016 – present, Post-Doctoral Associate, University of Florida, Department of Plant Pathology (\$48,000 annually)

-Plant disease spread modeling

06/2011 – 05/2016, Herbarium Curator, Florida State University (\$23,000 half-time)

-Biodiversity and invasive species reporting

08/2010 – 06/2016, Teaching Assistant, Florida State University (\$23,000 half-time)

04/2009 – 08/2010, Project Manager-Plant Ecologist SWCA Environmental Consultants Hawaii (\$70,000 annually)

-invasive plant strategy and vegetation management protocols

12/2006 – 04/2009, Hawaii Invasive Species Council Coordinator, Research Corp. of Hawaii/Department of Land and Natural Resources (\$55,000 annually)

-budget management \$2-4 million

-interagency coordination

-hiring

-contract management

12/2005 – 12/2006, Field Operations Supervisor, Puu Kukui Preserve, Maui Land and Pineapple Company, Hawaii (\$48,000 annually)

-animal and plant control

-biodiversity monitoring

08/2001 – 10/2005, Research Scientist, Charles Darwin Research Station, Galapagos, Ecuador (\$24,000 annually)

-large staff 5-15

-invasive plant management research

-publications

-reporting to funding agencies

-GIS

08/1997 – 04/2001, Weed Ecologist/Botanist, Department of Conservation, New Zealand (\$43,000 annually)

-national monitoring protocol for invasive plants

-national invasive plant database

-native plant (rare species) monitoring

-wilding pine and broom management

-discussions about Regional Pest Management Strategies

-contribution to DOC invasive species management strategy

Research Experience

August 2016 – Present, Post-Doctoral Researcher, K.A. Garrett's Lab, University of Florida, Systems analysis of multi-layered networks to study epidemiology of plant disease in agricultural and natural ecosystems.

June 2011 – December 2016, Florida State University, A.R. Mast's Lab, Phylogenomics in the angiosperms and the cosmopolitan beaksedges (Rhynchosporae).

January 2006 – April 2009, Hawaii Invasive Species Council, Biofuel risk assessments, invasive species management.

August 2001 – November 2005, Charles Darwin Research Station, Applied invasive plant research in Galapagos.

August 1997 – May 2001, Department of Conservation, biodiversity (plants) protection and invasive species management.

February 1993 – February 1995, University of Auckland, John Ogden's Lab, Invasive animal impacts in *Dysoxylum spectabile* forests in New Zealand.

Teaching Experience

Teaching Assistant

2010-2016 Field Botany 1 semester, Plant Biology Lab 2 semesters, Biological Science Lab II (non-majors) 2 semesters, Evolution 1 semester.

Guest Lecturer

2016 Fall – UF – PLP4905/6905, Networks in Agricultural Systems with Dr. Karen Garrett

Presented lecture "Bayesian network analysis"

Grants and Awards

2014 – FSU's Robert K. Godfrey Endowment Award for Botany \$700: Phylogenomics and systematics of Rhynchosporae (Cyperaceae).

2013 – Doctoral Dissertation Improvement Grant National Science Foundation \$19,110: "Extending anchored phylogenomics into plants with a case study of beaksedge (tribe Rhynchosporae; Cyperaceae) diversification in the New World."

2012 – Florida Native Plant Society \$1500: "Genetic resources for identifying beaksedges (Rhynchospora) and understanding their diversity in Florida and the Coastal Plain"

2011 – FSU's Robert K. Godfrey Endowment Award for Botany \$700 Phylogeography, taxonomy and character evolution in Rhynchosporae (Cyperaceae).

2009 – Contracted to write a Global Environmental Facility a proposal for invasive species capacity building for South Pacific Regional Environment Programme (SPREP) & UNEP: \$50,000 Participants were governments from Tonga, Cook Islands, Samoa, Niue, PNG, Kiribati, Palau, Federated States of Micronesia, Solomon Islands, Marshall Islands and Vanuatu.

2000 – Waitakere City Council, Auckland, New Zealand: Contracted to write a Weed Strategy for the Waitakere City Council (\$5,000).

1995 – Auckland Regional Council \$35,000: Setting up a monitoring program to detect the response of forests to Australian brush tailed possum control.

1994 – Northland Regional Council, Pest Management Scholarship, Possum Impacts and Management in Kohekohe Forests (\$5,000)

Professional Activity and Service

Professional Activity and Service

2014 – Lobbied members of Congress in Washington DC to improve policies related to government sponsored biofuel and invasive species research under the National Wildlife Federation and the National Environmental Coalition on Invasive Species.

Professional Society Membership

The IUCN Invasive Species Specialist Group since 1999.

Peer Reviews Completed

PLOS ONE (topic: biofuels); *The Wilson Journal of Ornithology* (topic: invasive species); *Environmental Science & Policy* (topic: invasive species); *Pacific Science* (topic: invasive species); *Biodiversity and Conservation* (topic: invasive species); *Plant Ecology* (topic: invasive species); *Environmental Management* (topic: invasive species).
